Independent assurance report on the award of the "Total Ecosolutions" label to the "0W-20 Fuel Economy engine oils for cars" products:

- « TOTAL QUARTZ INEO (XTRA) DYNAMICS 0W-20 »
- « ELF EVOLUTION FULL-TECH APX 0W-20 »
- « ELF EVOLUTION FULL-TECH VSX 0W-20 »
- « TOTAL QUARTZ INEO (XTRA) LONG LIFE 0W-20 »
- « TOTAL QUARTZ INEO (XTRA) FIRST 0W-20 »
- « TOTAL QUARTZ 9000 (XTRA) V-DRIVE 0W-20 »
- « TOTAL QUARTZ INEO XTRA EC5 0W-20 »
- « TOTAL QUARTZ INEO XTRA C5 0W-20 »

- « TOTAL QUARTZ INEO XTRA EC5 0W-20 »
- « TOTAL QUARTZ INEO XTRA C5 0W-20 »

Further to your request, we have performed a review in order to obtain reasonable assurance the “0W-20 Fuel Economy engine oils for cars” products:

- « TOTAL QUARTZ INEO (XTRA) DYNAMICS 0W-20 Fuel Economy engine oils for cars »,
- « ELF EVOLUTION FULL-TECH APX 0W-20 Fuel Economy engine oils for cars »,
- « ELF EVOLUTION FULL-TECH VSX 0W-20 Fuel Economy engine oils for cars »,
- « TOTAL QUARTZ INEO (XTRA) LONG LIFE 0W-20 Fuel Economy engine oils for cars »,
- « TOTAL QUARTZ INEO (XTRA) FIRST 0W-20 Fuel Economy engine oils for cars »,
- « TOTAL QUARTZ 9000 (XTRA) V-DRIVE 0W-20 Fuel Economy engine oils for cars»,
- « TOTAL QUARTZ INEO XTRA EC5 0W-20 Fuel Economy engine oils for cars»,
- « QUARTZ INEO XTRA C5 0W-20 Fuel Economy engine oils for cars »,

a description of which can be found on the web site www.total.com¹ and in the external datasheet dated March 16, 2020, have obtained the “Total Ecosolutions” label in accordance with the version 6 of the “Total Ecosolutions Guidelines” dated October 24, 2019 (hereafter referred to as the “Guidelines”); the Guidelines, which can be downloaded from the web site www.total.com¹, have been established on the basis of the ISO 14020 and ISO 14021 standards and were the subject of a preliminary external review which gave rise to the issue of an independent report on their design, this report also being accessible on www.total.com¹.

We conducted our review in accordance with international standard ISAE 3000 (International Standard on Assurance Engagements) defined by IFAC (International Federation of Accountants). It is the responsibility of Total to regularly update the Guidelines, to ensure that they are made available to internal users and third parties, and to apply the Guidelines. It is our responsibility to express, on the basis of our review, a conclusion on the award of the “Total Ecosolutions” label to the “0W-20 Fuel Economy engine oils for cars” products.

¹ Exact address: www.ecosolutions.total.com

Nature and scope of our review

To express our conclusion, we performed the following review:

- We have assessed the reliability, accuracy, understandability, neutrality, completeness and relevance of the Guidelines and the constituents of the “Total Ecosolutions” label request file for products and services.
- We have conducted interviews with the persons in charge of preparing the label request file, and analyzed the documentation available (aiming at justifying the methods of evaluation of the product's overall environmental impact and of the comparative performance evaluation with the reference product). We have also reviewed the meeting minutes and documents used during the validation process by the “Total Ecosolutions” Labelling Committee and the Total Ecosolutions Management Committee, in order to identify any risks of deviation in relation to the label award process defined in the Guidelines. However, the scope of our work did not include the verification of data used as sources for the calculation.
- To conduct the aforementioned procedures, we called on members of our teams specialized in environment and sustainable development.

Information or explanations

- The Guidelines aim to define the rules for the award of the “Total Ecosolutions” label, the organisation and responsibilities, the methods for assessing the level of environmental performance and verifying the compliance with the Guidelines, the internal and external communication procedures as well as the rules for document management, in accordance with the requirements of the ISO 14020 and ISO 14021 standards.
- “0W-20 Fuel Economy engine oils for cars” products are lubricants for cars’ engine. These products, due to their optimized viscosimetric profiles and friction reducing additives, are characterized by their ability to reduce the friction of a heat engine. These lubricants meet "Fuel Economy" criteria as defined by the ACEA (Association of European Automobile Manufacturers) in the standard “Service fill engine oils for gasoline & light duty diesel engines (A/B categories), gasoline & light duty diesel engines with exhaust aftertreatment devices (C categories) and heavy duty diesel engines (E categories)” dated 2016.
- The environmental and health performance of the “0W-20 Fuel Economy engine oils for cars” products is evaluated by comparison, based on an equivalent outcome for the customer, with a reference product, the TOTAL QUARTZ 7000 10W-40 lubricant which is representative of the market.
- Comparative assessment of the global environmental impact of the products “0W-20 Fuel Economy engine oils for cars” is based on the official engine test "Fuel Economy" for light vehicles: CEC -L-54-T -96 (known as M111FE and used by ACEA) to evaluate the reduction of fuel consumption induced by the product.
- The functional unit considered is "lubrication of the engine of an average motor sized car for a 1 000 km average trip with a defined lubricant".

- The benefit considered significant and validated by the “Total Ecosolutions” Management Committee is a fuel consumption and greenhouse gas emissions reduction between 2.3% and 2.9% obtained through the use of each labelled product:
 - A 2.9% reduction for « TOTAL QUARTZ INEO (XTRA) DYNAMICS 0W-20 »,
 - A 2.9% reduction for « ELF EVOLUTION FULL-TECH APX 0W-20 »,
 - A 2.6% reduction for « TOTAL QUARTZ INEO (XTRA) FIRST 0W-20 »,
 - A 2.5% reduction for « TOTAL QUARTZ INEO XTRA EC5 0W-20 »,
 - A 2.5% reduction for « TOTAL QUARTZ 9000 (XTRA) V-DRIVE 0W-20 »,
 - A 2.4% reduction for « TOTAL QUARTZ INEO XTRA C5 0W-20 »,
 - A 2.3% reduction for « ELF EVOLUTION FULL-TECH VSX 0W-20 »,
 - A 2.3% reduction for « TOTAL QUARTZ INEO (XTRA) LONG LIFE 0W-20 ».

Conclusion

In our opinion, the “0W-20 Fuel Economy engine oils for cars” products have been awarded the “Total Ecosolutions” label, in all its significant aspects, in accordance with the Guidelines.
