

15W-30 Fuel Economy Engine Oils for Farm Equipment

Total Tractagri HDX FE and Elf Agritec FE are 15W-30 grade fuel economy engine oils for farm equipment. Their use improves fuel efficiency and reduces carbon dioxide emissions. These lubricants are used both as factory fill and during operation.

The Total Ecosolutions Advantage

Because fuel economy lubricants have an optimized viscosity profile, they reduce the friction that causes power loss in the lubricated parts, thereby improving fuel efficiency and reducing carbon dioxide emissions. Switching from a conventional 15W-30 oil to Tractagri or Agritec 15W-30 improves fuel efficiency by around **1,2%** (measured on an official test bench).

The Environmental Performance

1,2% reduction in energy consumption

1,2% reduction in greenhouse gas emissions

EXTERNAL VERIFICATION

Independent auditor EY has verified that this product was labeled according to the method described in the Total Ecosolutions Guidelines and that the guidelines comply with the principles set out in the ISO 14020 and 14021 standards which govern environmental claims and particularly their accuracy.

Label Award date: August 2011

Label Renewal date: November 2016
Guidelines Version 5

Label Term: December 2021

Geographical Scope: Europe

Leveraging innovation to serve continuous improvement, the Total Ecosolutions program involves developing products and services that enable our customers to improve their environmental footprint.
